About Shobha Trust

Shobha Trust is a Bengaluru-based non-profit organization established under the aegis of Sammprada Hospital with a commitment to Cancer Prevention. Guided by the motto "Unite for Health & Ignite Hope," the Trust works to improve community health through cancer awareness, early detection, preventive healthcare, and community outreach programs.

The Trust conducts:

- Community-based cancer screening camps
- Cancer awareness and health education programs
- Tobacco and alcohol cessation initiatives
- Lifestyle and nutrition counselling
- Vaccination and preventive healthcare activities
- Volunteer training to create "Cancer Warriors" who promote health awareness in their communities.

Led by renowned oncologist Dr. Radheshyam Naik, Shobha Trust aims to reduce the burden of cancer by promoting prevention, early diagnosis, and timely treatment, especially among underserved rural and semi-urban populations.

Project UDARAM

Project UDARAM is a flagship preventive healthcare initiative of **Shobha Trust** aimed at the **early detection and management of *Helicobacter pylori* (H. pylori) infection**, a major risk factor for stomach ulcers and gastric cancer. The project focuses on identifying high-risk individuals through non-invasive screening, providing timely treatment, counselling, and follow-up care to prevent the progression of gastrointestinal diseases and reduce the burden of gastric cancer.

Key Components:

- H. pylori screening using the **Urea Breath Test (UBT)**
- Doctor consultation and clinical assessment
- H. pylori antibiotic treatment kit for positive beneficiaries
- Diet and lifestyle counselling
- Tobacco and alcohol cessation counselling
- Sanitary and hygiene education
- Follow-up and monitoring to ensure treatment completion and improved health outcomes

Project UDARAM promotes **prevention, early diagnosis, and community-based healthcare**, helping improve gastrointestinal health and reduce the risk of stomach cancer through accessible screening and comprehensive care.

Camp Details

Particular	Details
Camp Name	Comprehensive stomach cancer prevention camp
Project	Project UDARAM
Date	28 September 2026
Venue	Yarab Nagar UPHC, Bengaluru
Organized by	Shobha Trust – Samprada Hospital

Camp Statistics and Risk Factor Assessment

The lifestyle and medical risk factors were assessed during the camp activities and counselling were provided for every associated risk factor.

Particular	**Number**
Registered	50
Screened (UBT)	50
H. pylori Positive	36
Tobacco consumption	10 Heavy Smokers 5 Light/Passive smokers
Alcohol consumption	Frequently -05
BMI Assessment	Overweight-13 Obesity-06
Fasting Blood Sugar	FBS Abnormalities -10
BP Screening	High Blood Pressure -14

Risk factor findings and counselling

Tobacco Assessment: Tobacco cessation counselling was provided to heavy smokers, along with education on the health risks associated with smoking. Light and passive smokers were counselled on avoiding tobacco exposure, the harmful effects of second-hand smoke, and the importance of maintaining a smoke-free lifestyle.

Alcohol assessment: Indicated low-risk alcohol consumption among the screened beneficiaries. Participants were counselled on limiting alcohol intake and adopting healthy lifestyle practices to reduce the risk of gastrointestinal and other chronic diseases.

BMI Assessment: 13 participants were overweight, and 06 participants were obese. Such beneficiaries were counselled regarding prudent diet and adequate physical activity.

Peak Flow Assessment: Beneficiaries with PEFR values below the recommended cut-off were advised to undergo further respiratory evaluation if symptomatic. They were also counselled on breathing exercises, avoiding tobacco smoke and environmental pollutants, and maintaining respiratory health.

Beneficiary related Outcomes

All Beneficiaries 50

Preventive Counselling- health education and health awareness were provided to all the beneficiaries.

- Doctor Consultation: delivered to all beneficiaries.
- Exercise and dietary advice were provided.
- Sanitation and Personal Hygiene Education were provided.
- Tobacco cessation counselling and education on maintaining a smoke-free lifestyle were provided.

Positive Beneficiaries

- **Treatment:**36 Beneficiaries who tested H. pylori positive were treated with H. pylori kit (antibiotic) for 14 days.
- **Targeted counselling:** provided in one-to-one counselling on Sanitation and Personal Hygiene and medication compliance.
- **Targeted counselling:** provided in one-to-one counselling on Tobacco cessation, alcohol de-addiction, dietary modification.
- **Follow up:** instruction and monitoring schedules will be provided to all treated Beneficiaries to ensure complete adherence to the 14 days antibiotic course and follow-up evaluation.

Camp Outcomes

The Integrated Preventive Health Screening Camp successfully:

- Registered 50 beneficiaries.
- Screened 50 beneficiaries for H. pylori infection.
- Identified 36 positive cases and initiated immediate antibiotic treatment.
- Comprehensive risk assessment for tobacco, alcohol, drug use, obesity, Fasting blood sugar, blood pressure, respiratory health and physical activity.
- Delivered group health education and lifestyle advise for all beneficiaries and one to one counselling for all risk beneficiaries.
- Increased community awareness regarding stomach cancer prevention.
- Strengthened collaboration with Yarab Nagar UPHC and Samprada Hospital.

Acknowledgement

Shobha Trust extends its sincere gratitude to everyone whose support, dedication, and collaboration contributed to the successful organization of the Comprehensive stomach cancer Prevention Camp under Project UDHARAM – Stomach Cancer Prevention and Control Program, held on 28 September 2026 at Yarab Nagar Urban Family welfare centre (UPHC), Bengaluru.

We sincerely thank Dr. Radheshyam Naik, Founder of Shobha Trust, for his visionary leadership, continuous encouragement, and unwavering commitment to cancer prevention and community healthcare through Project UDARAM.

Shobha Trust sincerely acknowledges **International Children's Wellness** for their generous financial support towards our community healthcare initiatives. Their contribution has helped us conduct preventive health screening, awareness and counselling programmes, enabling us to extend essential healthcare services to underserved communities. We deeply appreciate their valuable partnership and commitment to improving community health and well-being.

Our sincere appreciation goes to the Medical Officers, Doctors, Nurses, Laboratory Technicians, Pharmacists, and Healthcare Staff of Samprada Hospital for their dedicated medical services, professional guidance, and compassionate care throughout the camp.

We are deeply grateful to the Medical Officer and Staff of Yarab Nagar Urban Primary Health Centre (UPHC), BBMP, for their excellent coordination, logistical support, and valuable partnership in ensuring the smooth and successful conduct of the programme.

We also acknowledge the dedicated efforts of the Shobha Trust Administrative Team, Camp Coordinators, Volunteers, and Support Staff, whose commitment to beneficiary registration, documentation, counselling, logistics, and overall camp management was instrumental in the success of this initiative.

Special thanks are extended to all the beneficiaries who actively participated in the programme and cooperated with the screening process, including H. pylori testing, tobacco and alcohol risk assessment, obesity screening (BMI), blood pressure measurement, peak flow assessment, smoke cessation counselling, sanitation and hygiene education, and lifestyle modification counselling.

Sponsor Recognition

International Children's Wellness

Our Sincere Gratitude

Shobha Trust sincerely acknowledges the generous sponsorship of **International Children's Wellness**, whose contribution of **USD 1300** played a vital role in the successful implementation of the under **Project UDARAM – Stomach Cancer Screening and Prevention Program**.

His valuable support enabled the Trust to provide **free H. pylori Urea Breath Test (UBT)** screening, consultations, medicines and comprehensive health evaluations and health education for all the beneficiaries. These services promoted early detection, timely intervention, and increased awareness of preventive healthcare within the community.

Shobha Trust expresses its heartfelt appreciation to **International Children's Wellness** for his generosity and commitment to improving community health. His support has made a meaningful impact on the lives of many beneficiaries and has strengthened our mission to prevent stomach cancer, promote healthy lifestyles, and build healthier communities.
